Product Description

Product features:

There is a special newborn care area in the car, equipped with a newborn incubator, special monitoring equipment, etc., to meet the special care needs of newborns.
Soft lighting design and low noise equipment are used to create a quiet and comfortable environment to avoid stimulation to newborns.
The medical staff has been trained in professional neonatal first aid and has rich experience in neonatal care.

Product usage:

Responsible for the transfer of newborns, such as premature babies from primary hospitals to hospitals with neonatal intensive care units.
Rapid treatment and transportation of newborns with emergencies such as asphyxia and jaundice after birth.
Provide timely medical support to newborns in case of emergencies during labor and delivery.

Product advantages:

Specialized care areas and equipment to guarantee the safety and health of newborns during the transfer process. Comfortable environment and professional medical staff take care of newborns to improve the success rate of treatment.
Provide all-round protection for the life and health of newborns, reflecting the special care for newborns.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.

Is international logistics guaranteed?

After the purchase of goods are shipped, the company tracks the order in full. Shipping video and transport video we provide for you at any time.
