Product Description

Product features:

Isuzu refrigerated truck has a spacious cab with ergonomic interior space design, which provides drivers with a comfortable driving environment and reduces long-distance driving fatigue.
The compartment adopts quick-connect interface, which can be easily connected with external refrigeration equipment or backup power supply, enhancing the flexibility and reliability of transportation.
A vehicle alarm system is installed to monitor the vehicle status in real time through sensors, and once abnormalities are detected, an alarm is immediately issued and the owner is notified.

Product usage:

Suitable for long-distance cold chain transportation drivers, comfortable cab to enhance the driving experience and ensure driving safety.
In special circumstances, such as refrigeration unit failure requires external equipment, or in the transportation of unstable areas of power to connect the backup power supply, to ensure that the cold chain continues.
For logistics enterprises and individual owners to protect vehicles and goods security, to prevent vehicle theft caused by economic losses.

Product advantages:

Comfortable cab improves driver efficiency and safety.
Fast connection interface enhances the ability to cope with unexpected situations and guarantees the completion of transportation tasks.
Alarm system protects the safety of vehicle and cargo.
