Product Description

Product features:

With a large cargo loading space, the interior dimensions of the compartment are carefully designed to accommodate a large amount of cargo to meet the needs of large-scale cold chain transportation.

Isuzu refrigerated trucks are equipped with professional cargo fixing devices, such as bundling straps, shelf catches, etc., to ensure that the cargo will not be shifted due to bumps in the transportation process, and to guarantee the transportation safety.

The refrigeration system has the function of quick defrosting, which can quickly restore the refrigeration effect when defrosting, reduce the temperature rise of the compartment caused by defrosting, and guarantee the quality of the goods.

Product usage:

Used in the centralized distribution of large supermarket chains, transporting a large number of refrigerated and frozen goods at one time, reducing the number of distribution.

During the large-scale food exhibition, transportation of various types of food exhibitors, fixed devices to ensure the safe transportation of goods.

Serving meat processing plants, efficient transportation of large quantities of meat products, fast defrost function to ensure that the cold chain is not chained.

Product advantages:

Large loading space improves transportation efficiency and reduces transportation cost.

Cargo fixing device ensures the safety of cargo transportation and reduces the risk of cargo damage.

Quick defrost function maintains stable low temperature environment and guarantees the freshness of cargo.
