Product Description

Product features:

Isuzu refrigerated truck refrigeration unit has low noise, runs smoothly, reduces noise interference to the surrounding environment, and is especially suitable for operation in noise-sensitive areas such as residential areas and hospitals. The inner wall of the compartment is made of corrosion-resistant and easy-to-clean materials, which can be easily cleaned after transporting seafood and other high-salt and easy-to-corrode goods, prolonging the service life of the compartment. Intelligent frost system is installed, which can automatically detect the evaporator frost condition and defrost in time to ensure the refrigeration efficiency and reduce the artificial maintenance cost.

Product usage:

Used for fresh food distribution within the city, shuttling through the city streets in the morning and evening peak hours, low noise without disturbing the people. Serving the seafood market, efficient transportation of fresh seafood, and easy to clean the carriage to reduce odor residue. Suitable for small cold chain warehousing enterprises, intelligent frost system to ensure stable operation of cold storage equipment.

Product advantages:

Low noise operation improves user experience and expands the operation range.
Easy to clean and corrosion-resistant compartments reduce maintenance difficulty and cost.
Intelligent frost system improves refrigeration efficiency and guarantees stable cold chain transportation.
