## Product Description

### Product features:

Adopting environmentally friendly refrigerant, no damage to the ozone layer, in line with the concept of green environmental protection, reduce environmental pollution.  
Refrigerated trucks have eye-catching appearance design, and the body is sprayed with professional cold chain logo, which is easy to identify and at the same time enhance the corporate image.  
Equipped with emergency refrigeration backup power supply, it can be automatically switched when the main power supply of the vehicle fails, continuously supplying power to the refrigeration unit to protect the safety of the goods.

### Product usage:

Applicable to the transportation of green food and organic agricultural products, to meet the market demand for environmentally friendly, high-quality agricultural products.  
It provides professional transportation services for all kinds of cold chain logistics enterprises, and stands out among many transportation vehicles with its eye-catching logo.  
In the transportation of emergency medical materials, such as the transportation of medical protection materials and medicines during epidemics, the backup power supply guarantees uninterrupted refrigeration.

### Product advantages:

Environmentally friendly refrigerant follows the trend of environmental protection and enhances the sense of corporate social responsibility.  
Eye-catching appearance enhances brand recognition and facilitates market promotion.  
Backup power supply provides double protection for cargo safety and reduces transportation risk.
