Product Description

Product features:

Isuzu refrigerated truck chassis performance is stable, strong power, equipped with Isuzu well-known engine, torque, adapt to various road conditions, to ensure uninterrupted cold chain transportation.

The interior design of the compartment is reasonable, with high space utilization rate, adopting optimized shelf layout, which is convenient for cargo placement and loading/unloading.

With good sealing performance, the compartment door adopts multi-layer sealing rubber strips, which effectively prevents cold air leakage and maintains the low-temperature environment inside the compartment.

Product usage:

Serving chain restaurant enterprises, distributing frozen ingredients, refrigerated seasonings, etc., to ensure the freshness of ingredients and support the normal operation of stores.

In fresh food e-commerce distribution, it undertakes the "last kilometer" distribution from the warehouse to the customer to ensure the fresh food products are delivered freshly.

Used by vegetable and fruit wholesalers to transport all kinds of fresh fruits and vegetables, reducing the deterioration and loss of fruits and vegetables in transit.

Product advantages:

Stable chassis and strong power ensure the transportation efficiency and reduce the time of goods in transit.

Reasonable compartment design enhances loading capacity and improves transportation efficiency.

Excellent sealing performance reduces energy waste and ensures cold chain effect.
