Product Description

Product features:

Isuzu refrigerated trucks have good passability, high chassis ground clearance, can adapt to different road conditions, and can also drive smoothly in the countryside dirt roads, mountain roads and other complex terrain, to ensure that the cold chain transportation covers a wide range. carriages use environmentally friendly biodegradable materials to make part of the interior, which reduces pollution to the environment and conforms to the development trend of green environmental protection. is equipped with a vehicle health diagnostic system, which regularly tests the key components of the vehicle, warns of potential failures in advance, and reduces maintenance costs and transportation risks.

Product usage:

Fresh food distribution in remote areas, good passability to ensure the delivery of goods. Provide cold chain transportation services for green food and environmental protection product enterprises, and the environmental protection interior is in line with the corporate philosophy. Logistics enterprises arrange maintenance in advance through the vehicle health diagnosis system to ensure the normal operation of vehicles.

Product advantages:

Good passability expands the transportation range and meets the demand of cold chain in different regions. Emergency Rescue Call System improves transportation safety and protects personnel and cargo.

After-sales service

AUTOKING has four overseas branches to develop overseas customers. We also carry out after-sales service guarantee for vehicles.

Is the price cheap?

The price is chosen by comparing several car manufacturers, and we also hope that customers can compare several times and finally choose our company.
