PRODUCT DESCRIPTION

The Futon Fengjing medical ambulance is carefully built according to national standards. It features a simple, beautiful exterior with smooth lines and a thoughtfully designed interior space. The spacious layout and careful attention to detail provide comprehensive support for medical rescue operations. The vehicle is equipped with auxiliary examination equipment, ensuring both a comfortable environment for patients and efficient examination and rescue procedures.

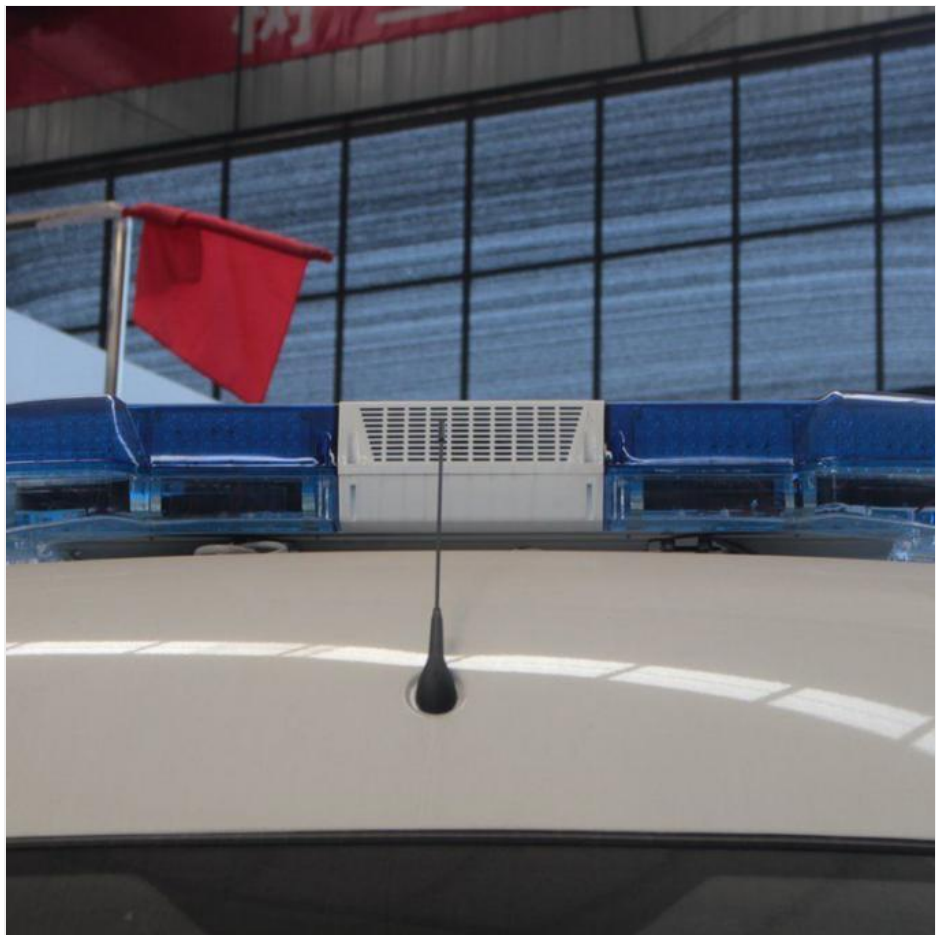

The exterior design of the Foton G7 ambulance is professionally executed. The body features red or blue reflective strips, with reflective rescue logos on the driver's door, hood, and tailgate for high visibility. The medical cabin has glass windows with 2/3 height translucent frosted glass paper, maintaining privacy while allowing natural light penetration.
